

DIESEL POWER BOOST

TECHNICAL DATA SHEET

DESCRIPTION

Diesel Power Boost is a Cetane improving formulation which raises the Cetane number of diesel reducing ignition delay resulting in more complete and consistent diesel combustion. Meets all NCWM, EMA, and TMC definitions for Premium Diesel as per (ASTM D613).

KEY BENEFITS

- Early and continuous ignition of diesel delivers better combustion throughout the power stroke delivering greater torque and power.
- Vastly improves cold starting and low temperature performance
- Quietens diesel engine noise by reducing knock
- More complete combustion leads to better fuel economy and reduced emissions.

APPLICATIONS

Ideal for all diesel engines to increase fuel performance in power, early ignition response (especially in cold conditions), eliminate knocking and reduce emissions.

DIRECTIONS FOR USE

- Add contents to diesel tank
- Treats 70L of diesel

PACK SIZES

12 x 325ml

PHYSICAL SPECIFICATIONS

Appearance:	Clear light yellow liquid
Density at 20°C:	0.8325 kg/dm ³
Flash Point:	45 °C
Odour:	Characteristic Hydrocarbon like

HEALTH & SAFETY DATA

Material Safety Data Sheets are available from the company.

SHELF LIFE

Whilst Fast products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use. From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment. It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

EXPIRY DATE

3 Years from manufacture date.

DISCLAIMER

The results displayed in this data sheet have been acquired using the latest revision of the methods indicated unless stated otherwise and may not be reproduced (except in full) without the written approval of Fast Racing Fuels. This test report is computer generated so a signature/stamp is not necessary.

Performance

Formulated for specific applications to ensure optimum performance.

Consistency

All our products offer industry leading levels of consistency and repeatability.

Quality

We pride ourselves on offering the highest standard of quality in each of our products.
